

Quality guarantee

GRÖMO has produced accessories for roof drainage since 1888 and guarantees utmost quality and reliability. GRÖMO products are manufactured in all common metals in accordance with the DIN EN 612 standard currently in effect. Only the metals stipulated in this standard are used:

- ✓ Aluminium sheets according to DIN EN 485
- ✓ Copper sheets according to DIN EN 1172
- ✓ Hot-dipped steel sheets according to DIN EN 10346 (former DIN EN 10326 and DIN EN 1 0327)
- ✓ Organic coated hot-dipped steel sheets according to DIN EN 10169
- ✓ Stainless steel sheets according to DIN EN 10088-1
- ✓ Zinc sheets (titan zinc) according to DIN EN 988

GRÖMO plug-in gutter outlets fully meet the requirements of DIN EN-12056 part 3. Verification and testing were done by the Technical University of Munich.

GRÖMO takes other measures based on associated quality requirements:

- ✓ Testing of all products according to our quality specifications
- ✓ Stringent incoming goods control for the primary materials and parts we use
- ✓ Participation in the INTERSEROH packaging disposal system (no. 90098)
- ✓ Single-origin raw material return of all materials used into the circulation system
